Operational
Cryptonyms for Iceberg W/T Candidates

1. Inasmuch as the security of W/T operations is of great importance, as discussed in our recent memorandum, we request that you assign one cryptonym from the GR list to be used with appropriate numerals for all W/T candidates who have not yet been assigned cryptonyms of their own. This should apply in the cases of the subjects of the cables mentioned above in order to avoid using their real names over and over again in correspondence.
2. We suggest that an appropriate cryptonym and numeral be assigned as soon as a candidate is considered for recruitment. Later, when his use and training are approved, and he achieves "project" status, he may be given a new cryptonym from the GR series.
